

Virtual Teaching Programme

Case Studies: Haemoglobinopathies Including Newborn Screening – The Challenges and Discrepancies, Session 2

DATE: 22/10/2020

TIME: 17.00 – 19.00 GMT

This event comprised of two separate sessions. Six of the laboratories participating in the ARISE project were invited to develop a single case study. The presentations set out a challenging patient case to a panel of experts and peers, before it being opened to a thought-provoking panel discussion, which facilitated further insights and recommendations.

Panel members:

Professor Baba Inusa - Guy's & St Thomas' NHS Foundation Trust (UK)

Dr Wale Atoyebi - Oxford University Hospitals NHS Foundation Trust (OUHF, UK)

Yvonne Daniel - Viapath, Guy's & St Thomas' NHS Foundation Trust (GSTT, UK)

Event managers:

Kelley Price, International Projects Officer, Royal College of Pathologists (UK)

Raleen Fernandes, ARISE Scientific Programme Manager, Guy's & St Thomas' NHS Foundation Trust (UK)
